

CROOKHORN COLLEGE

Dear Parent/Carer

Careers Education Programme

At Crookhorn College we strongly believe in the development of our students aspirations and ambitions and we have embedded this throughout our careers programme from year 7 to year 11.

We have recently updated our website with our current programme and policy showing how we engage with local colleges, training providers and universities to ensure students are aware of their post 16 opportunities.

We have links with employers and work towards students meeting a different employer in every year of their education to understand the skills required for employment.

Our website www.crookhorn.hants.sch.uk/ has links to the Spark app and Careers Companion where students and parents can find labour market information about different careers. The sign-up code for the Spark app is JYVGFQ8S

We also have a guidance section for parents and an alumni section to share the success of our past students.

We welcome any parent feedback about our programme including if you are aware of any companies that may be able to support with work experience or giving small group talks about their industry.

Any questions please contact Clare Mack – Careers Leader clare.mack@crookhorn.hants.sch.uk
