

Student Research Guidance

Start with
the University

- If you know what degree you want to do search the different universities to see who offers it.
- <https://discoveruni.org.uk/> will enable you to search for courses

Make sure you are
on the right
College Course

- Do you know which subject you want to do? Research what the entry requirements are.
- Have you visited the college? When is their open event?
- Normally you would choose 3 A Levels or 1 BTEC

Know your GCSE's

- Do you know what your current working grade is?
- What do you need for your college course?
- Double check the university course as well as some colleges will accept lower grades, but this can then stop you getting on your university course.
