

CROOKHORN COLLEGE

BRING YOUR OWN TECHNOLOGY (BYOT) RESPONSIBLE USE POLICY

Date of Policy: June 2020

Review Date: June 2023

As new technologies continue to change the world, they also provide many new and positive educational benefits for teaching and learning. Crookhorn College is committed to embrace and utilise these technologies to the full.

To encourage appropriate, acceptable and responsible use, students are permitted to bring in their own technology to use during the College day.

This Policy helps to educate and inform students and their parents about the use of own technology on the College site.

Definition of technology

For the purposes of Bring Your Own Technology (BYOT), technology refers to any privately owned portable equipment such as smart phones, tablets, laptops, ultra books, iPads/iPods, smart watches or any other device capable of accessing the internet.

Internet

Only the internet connection provided via the College Wi-Fi network may be accessed while on the College site. Accessing the internet through a signal that does not go through the filtered access provided by the College is not permitted at any time.

Use of mobile phones

The primary purpose of the use of personal devices at College is educational. Smart phones, internet based communication devices and/or applications may not be used during normal College hours for contacting parents or making phone calls. Students should follow normal College procedures if they need to contact home.

Security and damages

Responsibility to keep the device secure rests with the individual owner. Crookhorn College, including its staff and employees, are not liable for any device stolen or damaged on the College site. If a device is stolen or damaged, it will be handled through the College Policy similar to other personal belongings. It is recommended that protective cases should be used at all times and if the device is capable of being GPS tracked, then this should also be activated.

BYOT student agreement

The use of technology to provide educational material is not a necessity, but a privilege. A student does not automatically have the right to use their mobile phone, tablet or other electronic device while at the College. When abused, the privilege to do so will be removed.

Access to the Crookhorn College wireless is also a privilege, not a right. Any use of the wireless network entails personal responsibility and compliance with all College rules. The use of the network also allows IT staff to conduct investigations regarding inappropriate internet use at any time, by teacher request.

Students participating in BYOT must adhere to the Student Code of Conduct, as well as all other College Polices, as well as the associated Student Acceptable Use Agreement.

Behaviours considered to be in breach of the College BYOT Policy

- Use of a device in the classroom without permission.
- Use of social media via unregulated Wi-Fi connection whilst on the College site.
- Gaming whilst on the College site.
- Making phone calls/texting whilst on the College site.
- Taking photos/videos of others.
- Malicious use of the College network whilst connected to the device.
- Inappropriate use of the internet.

Additionally, technology:

- Must be in silent mode whilst on the College site.
- May not be used in tests or exams.
- Must only be used to access files or computer or internet sites which are relevant to the curriculum. Games are not permitted.
- Must not be charged whilst on the College site.

Students acknowledge that:

- The College network filters will be applied to the internet connection and attempts will not be made to bypass them.
- Their personal device is virus protected and is not capable of passing on infections to the College network.
- Hacking, damaging or bypassing the College internet security procedures is against the College Policy.
- The College has the right to collect and examine any device that is suspected of causing problems, either technical or from abuse of other College Policies.
- Printing from personal devices will not be possible.
- Personal technology is charged prior to bringing it in to College and runs off its own battery. Charging will not be possible during the College day.

Sanctions

Any breach of the BYOT Responsible Use Policy will be deemed appropriate to incur one of the following sanctions. The level of sanction will be determined on a case by case nature.

- Confiscation of device – returned to the student at the end of the lesson.
- Confiscation of device – returned to the student at the end of the College day.
- Confiscation of device – returned to parent/guardian following phone call home.
- Suspension of BYOT privilege – fixed term e.g. one week, two weeks, half term.
- ALO
- Subject detention
- SLT detention
- SIU/Federation inclusion
- Exclusion

It should be noted that certain breaches of the BYOT Response Use Policy will attract a significant sanction e.g. taking a photo/video without permission, use of device in toilets/changing rooms, malicious use of the College network.

Bring Your Own Technology (BYOT) Student Agreement

The College will deem that all students, parents and guardians agree and will adhere to the conditions highlighted in this document, unless a written request to opt out is received. In the case of a student wishing to opt out of the BYOT Agreement, alternative arrangements for the use of technology will be provided as appropriate by the College.

Please read each part of the BYOT Student Agreement carefully.

- Students take full responsibility for their own device. The College is not responsible for the security of personal technology. Personal devices cannot be left on College property before or after College hours.
- Students will not take, transmit, distribute or upload photographic images/videos of any person on the College premises, unless express permission has been obtained for use on College approved sites.
- A device cannot be used during tests or exams.
- A device will not be brought out in classrooms, unless specifically instructed by the teacher.
- To ensure appropriate internet filters are in place, students will only use the College Wi-Fi connection whilst on the College site and will not attempt to bypass the network restrictions by using a 3G, 4G or 5G network.
- Personal devices must be charged prior to being brought into College, and run off their own batteries whilst at College.
- The use of a personal device is not to be a distraction in any way to teachers or students. A personal device must not disrupt classes in any way.
- The College does not provide technical support for devices. Students are responsible for any repairs, maintenance or replacement costs and services.
- Students must ensure that their device is virus protected and is not capable of infecting the College network.
- Students understand that printing from a personal device will not be possible.
- Students should not share their device with other students, unless they have written permission to do so.
- The College retains the right to examine and confiscate any device.
- The College will inform parents or guardians of any misuse, and, in some cases, if confiscated, will only return the device to the parent or guardian.
- Gaming on a personal device is not permitted.
- The use of a personal device in lessons is solely to enhance learning and, as such, will not be used for the following:
 1. Sending text messages and taking part in chat to friends and peers through social networking sites.
 2. Browsing websites unrelated to lesson content and aims.
 3. Listening to music.

Please understand that the use of a personal device to support educational experience is not a necessity, but a privilege. With respect of the rules, this privilege will benefit the learning environment as a whole. When the rules are abused, the privilege will be removed.
