

## **Student STEM Ambassador**

### **Job Description**

The role of student STEM ambassador is an exciting role as you will be part of developing STEM throughout the college. This will mean representing your house at competitions, supporting with in-school and external events, working with teachers to show how STEM maps across all subjects and lastly developing your own knowledge and understanding ready for life after school.

#### **Personal Skills/Transferrable Skills**

*Communication* – to be able to take part in discussions, listen to everyone's point of view and be able find the best solution for the college.

*Teamwork* – working with the STEM co-ordinator and the other ambassadors to raise awareness within the college

*Time Management* – to support at events after school and occasionally meetings at lunch time

*Motivation* – to inspire others to understand how STEM subjects can support them

#### **Skills Required**

- Ability to work with others
- Good Communication skills
- A passion for STEM subjects

#### **Duties/Responsibilities**

- To work closely with the careers team and STEM co-ordinator
- To support at STEM events
- To work with teachers to promote STEM in their classrooms
- To work with external STEM ambassadors (from industry) to help raise awareness of STEM within the college
- To attend a STEM meeting once a term after school or at lunch time.

#### **Essentials**

- Commitment to this role
